

Welcome to Australia

[Click here to view a map of Australia](#)

Australia is the largest island and the smallest continent in the world. It lies between the Indian Ocean and the Pacific Ocean.

The population of Australia is almost nineteen million. More than four-fifths of the people live in cities and towns.

Australia boasts a fantastic temperate climate. It is a land of bright sunshine, surf beaches, tropical rivers, and lush rainforests.

The flora and fauna are interesting and unique, with kangaroos, koalas and wombats included in the array of animals.
